

Rivals of Hoover to Hold Edge in Congress

BALANCE OF POWER IN BOTH HOUSE AND SENATE WILL BE WIELDED BY PROGRESSIVES

This is the first of a series of several stories by Rodney Dutcher, Washington correspondent for the Brainerd Dispatch and NEA Service, on big issues before the new session of congress that convenes Dec. 7.

Washington, Nov. 27.—Whatever the seventy-second congress may do will be achieved in the face of these facts: It is chiefly composed of politicians looking eagerly or anxiously toward the elections of 1932.

Effective control of the house or senate will not be held by either major party.

In both houses there will be majorities hostile to President Hoover, who may veto any legislation which these majorities pass.

By virtue of tiny paper majorities, the democrats will organize the house and the republicans the senate. Even the paper majorities will be constantly in jeopardy.

Progressives in Power
Republican progressives will at all times hold a senate balance of power and their co-operation will be requisite in the house for any democratic legislative program.

Legislation, nevertheless, must be passed. More important problems confront congress and the president than at any session for many years. In addition, we may look forward to a terrific contest of strength between Mr. Hoover, who wants re-election, and a congress likely to try to ride roughshod over his objections to all but the most conservative measures. The president may set up an all-time record for lavish use of the veto power.

National attention concentrates on the house, where democrats will elect Jack Garner of Texas to succeed his old friend Nick Longworth in the speaker's chair and will take over the chairmanships of committees.

The house, within limits imposed by ist bulk, will now be as free and foot-loose as the senate has been. And it must be remembered that measures affecting finance and revenue—taxes, tariff, debts and so on—originate only in the house. Heretofore, such measures have been unable to originate anywhere when opposed by the administration.

Democrats Become Leaders
Democrats, for the first time since the world war, must assume leadership and present a genuine legislative program. Their position is delicate, for they must prove to the country, for election purposes, that they are "fit to rule."

The unanimity of democratic support behind Garner for speaker is one of the blessings of this congress on which the country should have been congratulating itself since a democratic majority was assured. The bitter contest in republican ranks between John Q. Tilson of Connecticut and Bert Snell of New York, badly complicated by the unwillingness of republican insurgents to accept either, had threatened a serious deadlock which might have prevented organization of the house for an indefinite period.

Rules Revision Seen
Now it appears that the house will organize promptly. Almost its first action probably will be a revision of the rules under which the administration's old triumvirate of Longworth, Tilson and Snell, backed by a huge majority, was able to dictate the legislative program.

The most vigorous and vocal proponents of a liberalization of the rules are the insurgents of the house, numbering perhaps a score. When it appeared that the republicans would have a paper majority these insurgents demanded in return for support in organization, changes which would enable the house to take action on measures when it desired. Their proposals would make it impossible, in the fact of substantial opposition, to keep a measure buried in committee or hold it off the floor.

Democrats Offer Spoils
The democrats are now trying to work out among themselves a more or less amicable arrangement for dividing the spoils which come to them in the form of committee chairmanships.

Northern democrats objected that under the traditional seniority rule most of the prized chairmanships went to southern members, especially to those from Garner's state of Texas. The first effort to smooth out the situation arising from the northern demand for recognition was seen in the general disposition to elect a northern member as floor leaders to share direction with Garner.

Itasca County Boy Wins Lipton 4-H Club Award

Chicago, Nov. 27.—(U.P.)—The Sir Thomas Lipton medals for the outstanding 4-H club service during 1931 were awarded today to a Minnesota girl and an Indiana boy.

The youngsters whose efforts were regarded as having contributed most to the ideals of the farm boys and girls organization are Mary Teresa Rico, of Keewauwin, Itasca county, Minnesota, and Charles L. Brown of Battleground, Tippecanoe, Indiana.

DEATH TOLL FROM HOLIDAY MISHAPS TOTALS 125 TODAY

NORTHWEST AUTO ACCIDENTS TAKE THREE LIVES IN WISCONSIN, ONE IN MINNESOTA

Chicago, Nov. 27.—(U.P.)—Thanksgiving day accidents took upwards of 125 lives, a survey by the United Press indicated today.

Though a cold wave in most sections of the country ended the lengthy siege of autumn-like weather, motoring accidents led the list with responsibility for more than half the fatalities.

Automobiles caused four deaths in the northwest with three in Wisconsin and one in Minnesota.

Five persons were drowned at Tyler, Texas, when their automobile shot over an embankment. They were Sam Hughes, 38, his wife, 30, two sons, Claude, 7, and Robert, 5, and a brother, Ed Hughes, 30.

Two men and a woman were killed at La Junta, Colo., when their automobile collided with a coal truck.

Preparations for Thanksgiving dinners took several lives.

Mrs. Marie Sousa, Visalia, Calif., was busy at cooking in her kitchen when a kerosene explosion set the home afire. Two sons, Joe, 7, and Dan, 5, perished.

Augusta Bork, Jr., 35, Marengo, Ill., died of burns when a companion touched a match to liquor that had spilled on Bork's clothing.

At Hudson, Mass., August Domingos, 56, choked to death while eating.

UNEMPLOYMENT SEASONABLY LOWER THAN IN MORE PROSPEROUS YEARS, GREEN SAYS

Washington, Nov. 27.—(U.P.)—A bright spot appeared today in the depression outlook with announcement by the American Federation of Labor that the rate of unemployment was checked during November, and was seasonably lower than even in the most prosperous years.

The total increase in unemployment by the first part of November was less than expected by about 200,000 persons, although the actual number of unemployed in industry was brought to a new high level, William Green, president of the federation, said.

The October-early November period was the first since last February in which the rate of unemployment increase was not more than normal, Green pointed out.

Hope Rises For Mix's Recovery

TOM MIX

Hollywood, Nov. 27.—(U.P.)—"Tom Mix has had a most satisfactory day."

This statement, issued by the actor's physician, Dr. R. Nichol Smith, brought renewed hope today for the noted cowboy's recovery from peritonitis, the result of a ruptured appendix.

Dr. Smith added, however, "we feel that he will not be out of danger for at least 48 hours."

Hundreds of inquiries from friends and well-wishers kept busy the staff of the Hollywood hospital which Mix helped to found.

WARMER WEATHER IN PROSPECT; OTHER SECTIONS SHIVER

CLOUDY SKIES MAY BRING CONTINUED SNOW BUT RISE IN TEMPERATURE FORECAST

While wintry winds stormed about neighboring states, Minnesota today enjoyed a lull from the cold wave that set in this week.

Warmer weather was forecast for the state for Saturday. Cloudy skies may deposit snow tonight or tomorrow, it was said by the United States weather bureau. Temperatures throughout the state were around the 25 degree mark.

In the Dakotas, Montana and Canadian provinces colder weather was reported. Williston, N. D., Winnipeg, Man., and Havre, Mont., reported zero or below marks. It was eight degrees below zero at Havre. Devils Lake, N. D., had eight above while Bismarck was 14 above.

STEEL, COAL UNITS ASSURE 10,000 OF WORK AT FULL TIME

INCREASED ACTIVITY TO GIVE MEN FULL PAY UNTIL JANUARY 1 AT LEAST

Pittsburgh, Nov. 27.—(U.P.)—Ten thousand furloughed employees or men working on reduced schedules today were assured of a full pay until January 1 through announcement of increased activity in the steel and coal industry.

The present force at the Edgar Thomson works of the Carnegie Steel company, who were recalled several weeks ago on receipt of large rail orders, will continue working through December, officials said today.

Officials pointed out that it was merely a continuance of present production. Reports that \$500,000 worth of steel is to be rolled for storage were not confirmed by Carnegie officials who said this question had not been decided. They declined to estimate the number affected which reports placed at almost 5,000.

McKeenport Tin Plate company has announced that about 3,000 men who have been working on a schedule of about half time will be given full time employment beginning next Sunday. Full time operators are expected to be maintained through December at least.

Several hundred men will be given employment in the Conemaugh district, near Johnstown, by the Bethlehem Steel corporation which has announced improvement.

Wheeling steel companies have increased production this week. Several coal companies are preparing to reopen idle mines and river shipping has increased.

The example of these concerns is expected to be followed by others operating now on reduced schedules, it was said. Carnegie officials indicated their hope that on completion of the bar steel to be rolled in December sufficient orders will be on hand to warrant continuance of operations into the new year.

INDIANS FIGHT WAY THRU BLIZZARD TO AID TRAPPED TRIBE

STRAGGLE INTO CIVILIZATION TO OBTAIN AID FOR 500 WHO ARE GUARDING PINON NUTS

Gallup, N. M., Nov. 27.—(U.P.)—Five hundred Navajo and Zuni Indians trapped on the desolate windswept mesas of the southwest faced death from cold and starvation today rather than abandon pinon nuts they had gathered.

Nine already are dead in what may result in one of the nation's worst blizzard tragedies.

Trapped on the mesas when a blizzard suddenly swept the region, the plight of the tribesmen was described as horrible. But with the queer psychology of the redman, they braved death rather than abandonment of the pinon nuts they had gone to gather.

Three hundred Indians in small groups, straggled more dead than alive, into civilization yesterday. The rest, they said, had remained to guard the nuts. The tiny Indian ponies, pitiful brutes at best, were so weakened by hunger and exposure they were unable to haul the nuts.

The three hundred set about immediately to fatten their ponies on forced diets of corn and oats—rations in the life of an Indian pony—to strengthen them sufficiently to return and gather the nuts.

The tribesmen were on two great mesas, Cerro Alto and Santa Rita, 10 miles west of the little Indian trading post of Atarque. The braves who returned to the Zuni agency, and to Atarque, said their fellow tribesmen had piled bits of brush into crude wind-blocks, for shelter. There was little fuel, they said. The snow was from three to ten feet deep. There was no forage for the ponies.

G. A. Trotter, superintendent of the Zuni reservation—the largest Indian town in the country, said today that unless aid would reach the Indians in 24 hours, many, or even most of them, might die.

Pantages Acquitted of Charge Filed by Girl

Los Angeles, Nov. 27.—(U.P.)—Alexander Pantages, multi-millionaire theater man, today was acquitted of a charge of attacking Eunice Pringle, 17-year-old dancing girl.

It was the second trial for Pantages. The first jury found him guilty and he was scheduled to go to San Quentin prison under a one to 50-year sentence.

After a bitter fight, he won a retrial from the state supreme court.

CHINA IGNORES JAP ULTIMATUM

Chorus Girls, Their \$150 Month Apartment Wardrobes Filled With Expensive Clothing, Die in a Suicide Pact

New York, Nov. 27.—(U.P.)—Police today sought a motive for the suicide of Adelaide M. Leavy, 25, and Jewel Warner, 20, two chorus girls found dead in their \$150-a-month apartment, their wardrobes filled with expensive clothing.

A maid who cared for the apartment said she thought they were "broke" but Miss Leavy's handbag contained \$40 and a note she left gave evidence of available cash.

The girls were found, clad in silk pajamas, on a mattress in the kitchen. Five gas burners had been opened.

The bodies were unclaimed.

Miss Leavy's note, which said she also was known as Adlyn Lee, instructed the finder to send her money to her "dearest friend," Mrs. Lelia Costa, Washington, "regardless of any claim my family may make on me."

The note indicated the existence of \$1,500 in cash in a safe deposit box.

LIONS NET \$15 IN FIRST AUCTION TO BUILD YULE FUND

ARTICLE TO BE SOLD EACH MEETING NOW TO CHRISTMAS TO PAY KIDDIES PARTY

The first of a series of so called "patagonian auctions" in the Lions club to raise funds for the annual Christmas cheer party for kiddies became so popular Wednesday night that bidding was closed to permit time for the regular program.

One article was offered at auction. It was wrapped and its contents not disclosed. The bidding opened at 25 cents. The original bidder paid the bid. Each successive bidder paid the difference in money between what was formerly bid. When the auction was closed the article was sold for \$15.

Clyde Parker was the final bidder. The article sold was an Eversharp pencil.

At each meeting now to Christmas an article will be offered for sale at auction in a similar manner. In this way funds will be raised to meet expenses of the kiddies party. In addition the Lions will "outfit" a Brainerd boy to be selected by the club. The boy will receive clothes from footgear to headwear.

No definite date has yet been fixed for the Christmas party, which annually is one of the big successes of the Yule season.

The speaker of the evening was Rev. J. R. Michaelson who addressed the members on "The Spirit of Thanksgiving."

MAKES WEST, EAST ATLANTIC CROSSING

Dakar, Africa, Nov. 27.—(U.P.)—Bert Hinkler completing the first west to east airplane crossing of the South Atlantic, landed at Bathurst, on the coast of British Guiana, this morning.

His flight from Natal, Brazil, took 22 hours. Hinkler took off from Bathurst and landed at St. Louis, Senegal, 200 miles northward, today.

Hinkler, when he left Natal, intended to land between Dakar and Bissau, in Portuguese Guinea. Winds blew him off his course and forced him to make difficult landing at Bathurst, on the small island of St. Mary's in the mouth of the Gambia river.

Hinkler refueled at Bathurst and started for St. Louis, where there are greater facilities. He intended to start for port Etienne at dawn.

VICTIMS OF GASSING REPORTED BETTER IN LOCAL HOSPITAL

CHILDREN TO REMAIN UNDER OBSERVATION AND CARE FOR FEW DAYS

The five children, gas victims of a near fatal school bus ride seven miles west of Brainerd late Monday, were today reported improving in the St. Joseph's hospital.

Attendants, however, said the four children of A. L. Hendrickson, bus driver, and the little girl of Phil Holzman, would be kept in the hospital for a few days longer to avoid complications.

The children are under careful observation to prevent contraction of pneumonia or other serious ailments.

Meanwhile, school and county officials of Cass county are investigating reports that the school bus was not a safe vehicle for transportation purposes.

TESTIFIES PAPER LOSSES ON WHEAT TOTAL \$185,000,000

HEAD OF FARM BOARD UNIT APPEARS BEFORE SENATE AGRICULTURE COMMITTEE

Washington, Nov. 27.—(U.P.)—George S. Milnor, general manager of the wheat corporation and stabilization corporation, organized by the federal farm board, revealed today for the first time the status of the wheat holdings of the farmers-owned cooperatives. He was testifying before the senate agriculture committee.

The Farmers' National Grain corporation, of which Milnor is vice president and general manager, held on Oct. 31, the following:

Wheat, 12,184,047 bushels; corn, 742,000 bushels; oats, 1,676 bushels; barley, 908,000 bushels; rye, 83,000 bushels. Milnor submitted to the committee a supplemented report showing the paper losses on stabilization wheat owned by the government aggregated \$110,000,000 instead of \$102,000,000 as estimated yesterday by Chairman Stone of the farm board. That would make the estimated paper loss on cotton and wheat stabilization operations \$185,000,000 instead of \$177,000,000.

Milnor reported that since July the Grain Stabilization corporation has sold 105,312,565 bushels and has 10,484,181 bushels of new crop wheat and 27,348,000 bushels for future delivery.

This leaves a net sale in four months of 67,480,384 bushels of which 47,500,000 bushels was to foreign buyers and 19,980,384 to domestic buyers. Including wheat sold or traded to China and Brazil on which no price has been set, the corporation received an average of 64.7 cents a bushel.

Milnor said the increased estimate of paper losses on wheat was made because no price had been set for wheat for China and Brazil and it was figured arbitrarily at 50 cents a bushel. That is 13 cents less than the price at which the remainder of the wheat holdings is valued. The price of wheat bartered to Brazil depends on coffee prices and prices to China are calculated on the day of shipment.

Fergus Falls Man Admits Charge of Bigamy

Superior, Wis., Nov. 27.—(U.P.)—Confronted with charges of bigamy, non-support, desertion and a divorce suit, Thomas Pagoe, Fergus Falls, Minn., today revealed that he had married two more women while his first wife was still alive after he had heard she had died.

Eight years ago, Pagoe placed his wife Ruth in the Middle River tuberculosis sanatorium and went to Fergus Falls to work. While in Minnesota he heard that his wife had died. In the ensuing years he was married and divorced and then married again.

JAP TROOPS MOVE TOWARD CHINCHOW IN NEW OFFENSIVE

LEAGUE ADOPTS REVISED RESOLUTION PROVIDING FOR CESSATION OF HOSTILITIES

Tientsin, China, Nov. 27.—(U.P.)—Japan delivered an ultimatum to Chinese authorities here today after a night of fighting in which Japanese troops bombarded Chinese rioters with artillery and swept streets with machine guns and rifles.

Other foreign concessions were threatened during the fighting, the most severe since the outbreak two weeks ago. Naval reinforcements and boats for evacuation of Japanese civilians were requested of Tokio by the Japanese consul as result of the outbreak.

Chinese provincial authorities took little notice of the Japanese ultimatum except to ask by what authority the demands were made.

The ultimatum made the following demands:

1. Cessation of the Chinese hostile military attitude;
2. Withdrawal of Chinese troops seven miles beyond Tientsin;
3. Withdrawal of Chinese gendarmes from the river front;
4. Cessation of troop movements in Hopei province;
5. Stoppage of anti-Japanese demonstrations.

Tokio, Nov. 27.—(U.P.)—The Japanese captured Paichiao, fifty miles northwest of Mukden, this evening, it was announced officially.

The vanguard of the Japanese forces, moving southward toward Chinchow, reached Yangchuan, 30 miles north of Chinchow, this afternoon and halted for the night. It was announced in a communique by General Shigeru Honjo, Japanese commander.

Armored trains preceded the troop trains, the communique said, and encountered Chinese armed trains south of Tahanan. The Chinese abandoned their trains.

Paris, Nov. 27.—(U.P.)—The League of Nations council of 12 members, with China and Japan absent, held a brief secret meeting today and adopted its revised resolution providing for cessation of hostilities in Manchuria and an official investigation.

The Chinese, however, were reliably reported to have refused to consider the resolutions as long as the southern Manchurian city of Chinchow is menaced by Japanese troops.

The league foresees grave consequences if the Japanese occupied Chinchow, resulting in a Chinese retreat via Tientsin, where an attack on the Japanese concession might involve them with neutral troops and force the latter to take measures of self-defense.

The council was apprehensive late in the day over a report of the Japanese occupation of another south Manchurian city, Panchan.

News that Japanese troops were proceeding in armored trains over the British-owned Peiping-Mukden railway also was disturbing.

Aristide Briand, acting president of the council, was understood to be prepared to request an explanation from the Japanese delegate if the advance is not halted.

ONE DEAD, 7 HURT IN HIGHWAY CRASH

Slippery pavements were blamed for a number of car accidents in this district over the Thanksgiving Day holiday, the most serious accident being the collision of two cars six miles south of Little Falls on T. H. No. 27 late Wednesday. In this accident one person was fatally injured and several others suffered hurts.

The victim was Chester Kinman of Turtle River who died several hours after the crash. Tetio Miller of St. James and Harold Barner of Mankato, riding with him, were injured as were the occupants of the other car, Mr. and Mrs. Charles B. LeFevre of Minneapolis and their three daughters.

While there were no serious accidents in the immediate Brainerd vicinity, several drivers telephoned to garages here for assistance to get out of ditches after skidding off the highways.

Charge Financier Accepted 35% Interest From Foshay

Minneapolis, Minn., Nov. 27.—(U.P.)—Charges that E. C. Warner exacted at least 35 per cent interest from the W. B. Foshay Co., in a \$500,000 loan made August 23, 1929, were made today in a brief filed in the circuit court of appeals by C. J. Rockwood, receiver for the Foshay Co., and Joseph Chapman, receiver for the Public Utilities Consolidated Corporation, a subsidiary. Warner is a Minneapolis financier.

UNEMPLOYMENT SEASONABLY LOWER THAN IN MORE PROSPEROUS YEARS, GREEN SAYS

Washington, Nov. 27.—(U.P.)—A bright spot appeared today in the depression outlook with announcement by the American Federation of Labor that the rate of unemployment was checked during November, and was seasonably lower than even in the most prosperous years.

The total increase in unemployment by the first part of November was less than expected by about 200,000 persons, although the actual number of unemployed in industry was brought to a new high level, William Green, president of the federation, said.

The October-early November period was the first since last February in which the rate of unemployment increase was not more than normal, Green pointed out.

"The check in the rate of increase may be due largely to efforts to keep men at work," he said.

"Although this brightens the future outlook a little it does not alter the fact that the present unemployment crisis will far exceed any we have experienced in this or any other depression in years."

"Already there are 6,000,000 out of work. Unemployment in industry increased by 120,000 last month, and 300,000 were laid off on farms (the usual November layoff is 480,000)."

The federation head estimated that if unemployment increases as much in the next two months as it did in 1928 and 1929, 8,000,000 to 10,000,000 will be laid off from farms and industries in December and from 500,000 to 700,000 in January.

Several hundred men will be given employment in the Conemaugh district, near Johnstown, by the Bethlehem Steel corporation which has announced improvement.

Wheeling steel companies have increased production this week. Several coal companies are preparing to reopen idle mines and river shipping has increased.

The example of these concerns is expected to be followed by others operating now on reduced schedules, it was said. Carnegie officials indicated their hope that on completion of the bar steel to be rolled in December sufficient orders will be on hand to warrant continuance of operations into the new year.

WARMER WEATHER IN PROSPECT; OTHER SECTIONS SHIVER

CLOUDY SKIES MAY BRING CONTINUED SNOW BUT RISE IN TEMPERATURE FORECAST

While wintry winds stormed about neighboring states, Minnesota today enjoyed a letup from the cold wave that set in this week.

Warmer weather was forecast for the state for Saturday. Cloudy skies may deposit snow tonight or tomorrow, it was said by the United States weather bureau. Temperatures throughout the state were around the 25 degree mark.

In the Dakotas, Montana and Canadian provinces colder weather was reported. Williston, N. D., Winnipeg, Man., and Havre, Mont., reported zero or below marks. It was eight degrees below zero at Havre. Devils Lake, N. D., had eight above while Bismarck was 14 above.

New York, Nov. 27.—(U.P.)—Police today sought a motive for the suicide of Adelaide M. Leavy, 25, and Jewel Warner, 20, two chorus girls found dead in their \$150-a-month apartment, their wardrobes filled with expensive clothing.

A maid who cared for the apartment said she thought they were "broke" but Miss Leavy's handbag contained \$40 and a note she left gave evidence of available cash.

The girls were found, clad in silk pajamas, on a mattress in the kitchen. Five gas burners had been opened.

The bodies were unclaimed.

Miss Leavy's note, which said she also was known as Adlyn Lee, instructed the finder to send her money to her "dearest friend," Mrs. Lelia Costa, Washington, "regardless of any claim my family may make on me."

The note indicated the existence of \$1,500 in cash in a safe deposit box.

JAP TROOPS MOVE TOWARD CHINCHOW IN NEW OFFENSIVE

LEAGUE ADOPTS REVISED RESOLUTION PROVIDING FOR CESSATION OF HOSTILITIES

Tientsin, China, Nov. 27.—(U.P.)—Japan delivered an ultimatum to Chinese authorities here today after a night of fighting in which Japanese troops bombarded Chinese rioters with artillery and swept streets with machine guns and rifles.

Other foreign concessions were threatened during the fighting, the most severe since the outbreak two weeks ago. Naval reinforcements and boats for evacuation of Japanese civilians were requested of Tokyo by the Japanese consul as result of the outbreak.

Chinese provincial authorities took little notice of the Japanese ultimatum except to ask by what authority the demands were made.

The ultimatum made the following demands:

1. Cessation of the Chinese hostile military attitude;
2. Withdrawal of Chinese troops seven miles beyond Tientsin;
3. Withdrawal of Chinese gendarmes from the river front;
4. Cessation of troop movements in Hopei province;
5. Stoppage of anti-Japanese demonstrations.

Tokio, Nov. 27.—(U.P.)—The Japanese captured Paichipao, fifty miles northwest of Mukden, this evening, it was announced officially.

The vanguard of the Japanese forces, moving southward toward Chinchow, reached Yangchuanze, 30 miles north of Chinchow, this afternoon and halted for the night. It was announced in a communique by General Shigeru Honjo, Japanese commander.

Armored trains preceded the troop trains, the communique said, and encountered Chinese armed trains south of Tachuan. The Chinese abandoned their trains.

Paris, Nov. 27.—(U.P.)—The League of Nations council of 12 members, with China and Japan absent, held a brief secret meeting today and adopted its revised resolution providing for cessation of hostilities in Manchuria and an official investigation.

Pile Sufferers

You Can End Your Torment Quick

Do you know the cause of Piles is internal—bad circulation of blood in the lower bowel?

That is the scientific truth about piles—the real reason why external remedies do not give quick, permanent relief, why cutting does not remove the cause.

Your itching, bleeding or protruding piles will only go when you actually remove the cause—and not one minute before. Salves or cutting can't do this—an internal remedy must be used. HEM-ROID, prescription of Dr. J. S. Leonardt, the specialist, succeeds because it stimulates the circulation, drives out congested blood, heals and restores the almost dead parts.

HEM-ROID has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sufferers. Don't waste time on external remedies or think of an operation until you have tried a bottle of HEM-ROID tablets. H. P. Dunn and Johnson's Pharmacy guarantees money back if they do not quickly stop all your pile misery.

Faced Incredible Dangers

in Filming "The Viking"

Almost incredible dangers and hardships were encountered in the filming and recording of the motion picture, "The Viking," which opens at the Palace Theatre tonight and Saturday. This is the first production ever to be photographed and recorded in sound in the Arctic regions. The task of transporting the delicate and heavy equipment necessary for sound recording over shifting ice-fields, sometimes for many miles was a tremendous one. Every scene and sound in "The Viking" is absolutely authentic. Particularly interesting and thrilling are the scenes which show the hazardous seal hunts in which over 250 real sealers participated. An excellent cast of Broadway players portrayed the principal roles under the direction of George Melford.

125 YOUNG PEOPLE THANKSGIVING DAY ATTEND BREAKFAST

About 125 Brainerd young people and pastors enjoyed the early morning breakfast and program at the First Baptist church on Thanksgiving morning.

Mark Patterson, spoke on the "Two-fold Thanksgiving" and told of the many things we have to be thankful for. He said, in part, "The command of Christ is to go and to seek, and his promise is that we shall find." He said that if we follow this command, we shall be so occupied in doing good that our hearts will be filled with thanksgiving.

For the past five years the young people of Brainerd have been sponsors of the annual Easter and Thanksgiving sunrise service. Two years ago the Young People's Church Federation was organized electing the following officers who have served up to this time:

President—Florence Swanson.
Vice President—Stuart Patterson.
Secretary—David Weber.
Treasurer—Lillian Peterson.

The following are the newly elected officers for the coming year:

President—Dorothy Hass, Evangelical church.

Vice President—Onalie Lewis, First Baptist church.

Secretary—Treasurer—Florence Swanson, Swedish Bethany church.

L. L. Peterson of the Y. M. C. A. is advisor for this organization.

Northern Pacific Shops Give \$131.40 to Red Cross

Wednesday's report on the Red Cross roll call in the Daily Dispatch should have read seven dollars for Mrs. John Spencer, West Brainerd. This is an increase over last year for Mrs. Spencer's efforts and does not include Northern Pacific employees.

The Northern Pacific shops reported their boost to the Red Cross by sending a check for \$131.40 to the committee. This represents the united efforts of foremen and men in the plant.

Mrs. W. C. Cobb's report of \$14.50 for North Seventh street is to be added to that of the second ward.

Pile Sufferers

You Can End Your Torment Quick

Do you know the cause of Piles is internal—bad circulation of blood in the lower bowel?

That is the scientific truth about piles—the real reason why external remedies do not give quick, permanent relief, why cutting does not remove the cause.

Your itching, bleeding or protruding piles will only go when you actually remove the cause—and not one minute before. Salves or cutting can't do this—an internal remedy must be used. HEM-ROID, prescription of Dr. J. S. Leonard, the specialist, succeeds because it stimulates the circulation, drives out congested blood, heals and restores the almost dead parts.

HEM-ROID has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sufferers. Don't waste time on external remedies or think of an operation until you have tried a bottle of HEM-ROID tablets. H. P. Dunn and Johnson's Pharmacy guarantees money back if they do not quickly stop all your pile misery.

125 YOUNG PEOPLE THANKSGIVING DAY ATTEND BREAKFAST

About 125 Brainerd young people and pastors enjoyed the early morning breakfast and program at the First Baptist church on Thanksgiving morning.

Mark Patterson, spoke on the "Twofold Thanksgiving" and told of the many things we have to be thankful for. He said, in part, "The command of Christ is to go and to seek, and his promise is that we shall find." He said that if we follow this command, we shall be so occupied in doing good that our hearts will be filled with thanksgiving.

For the past five years the young people of Brainerd have been sponsors of the annual Easter and Thanksgiving sunrise service. Two years ago the Young People's Church Federation was organized electing the following officers who have served up to this time:

President—Florence Swanson.
Vice President—Stuart Patterson.
Secretary—David Weber.
Treasurer—Lillian Webster.

The following are the newly elected officers for the coming year:

President—Dorothy Hass, Evangelical church.
Vice President—Onalie Lewis, First Baptist church.
Secretary—Treasurer—Florence Swanson, Swedish Bethany church.

I. L. Peterson of the Y. M. C. A. is advisor for this organization.

Haircutting 50c Commencing Dec. 1st

For the month passed the undersigned Barbers of Brainerd have made a sincere effort to contribute their bit in reducing expenses for the people of Brainerd.

During the month passed we have cut hair for 25c and we have learned that we cannot stay in business at that price.

Therefore on December 1st we go back to 50c. We trust the people of Brainerd will realize that we have made a sincere effort to reduce prices, and only when we realized that it is business suicide on our part have we abandoned the low price.

**What Baker-izing
Does for Coffee**
Dr. Potter
in "Materia Medica, Pharmacy and Therapeutics," a book recognized as authority by the medical profession, says in reference to coffee—
"Tannin is the ingredient which enables it to produce dyspepsia."
Coffee chaff contains tannin. There is no chaff in Barrington Hall Coffee because BAKER-IZING (an exclusive process) takes it out — completely.

Barrington Hall
The Only BAKER-IZED Coffee

Barrington Hall Coffee is made of a choice combination of the world's finest coffees. The coffee beans are selected and blended by experts, then, after being carefully roasted and steel cut, are Baker-ized to remove the harmful elements. You may drink Barrington Hall Coffee freely without fear of ill effects.

Thanksgiving Dinner

A sumptuous dinner was served in honor of Herman Weideman at his home, 617 N. 7th street, on Thanksgiving Day. The occasion was his 70th birthday and also in celebration of his retirement from service as machinist in the Northern Pacific railway shops for 24 years.

Covers were laid for 31. The centerpiece was a huge birthday cake graced with 70 candles. Weideman was the recipient of a number of beautiful gifts.

After an enjoyable time, the guests departed, wishing him many happy returns of the day. An out-of-town guest was Weideman's sister, Mrs. Amelia Sommerfeld, a resident of Tacoma, Wash.

Early Hour Yesterday

Rev. F. A. Kufus officiated at a quiet wedding Thanksgiving Day, at 12:15 a. m., when Miss Odessa Pearl Van Horn and Clarence Page Holmes were united

in marriage. The ceremony was performed in the Methodist parsonage, 624 Bluff avenue.

The bride wore a gown of blue satin, trimmed with silver lace, while her attendant, Miss Harriet Van Dorn, was dressed in black satin with matching accessories. Fred Van Dorn acted as best man.

The newly married couple left immediately after the ceremony for Merrifield, the home of the bride, where they will spend a few days. The groom is a son of Mr. and Mrs. John Holmes, West Brainerd, and the bride is a daughter of Mr. and Mrs. W. H. Van Horn.

They expect to make their home in Brainerd.

Study this Chart—It Gives You Coffee Facts

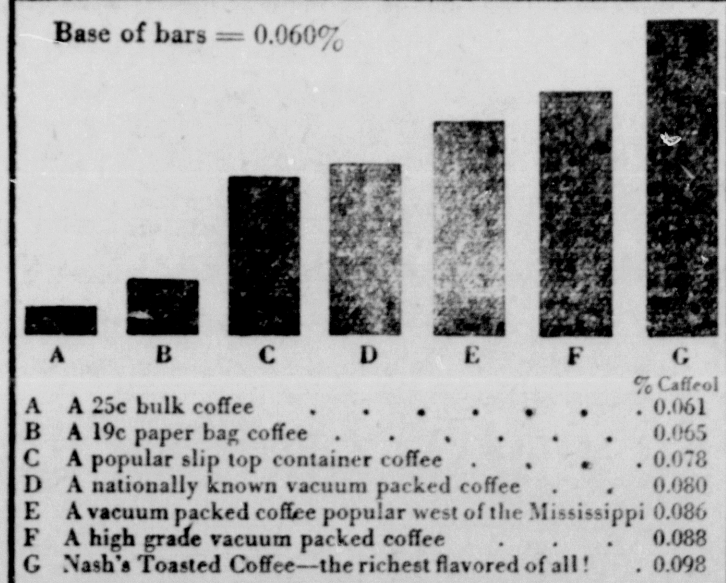

THE value of coffee is determined by flavor. The flavor of coffee, science has determined, comes from an aromatic oil known as caffeol.

Recently, the Van Cleve Laboratories, food chemists, analyzed the caffeol content of seven nationally known coffees.

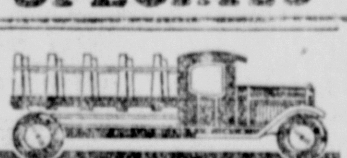

The chart below shows the relative caffeol content of these seven coffees. Note that one coffee—Nash's Toasted Coffee—contained from 11% to 60% more flavor than the other six brands. 11% to 60% more flavor!

Don't be deceived by prices! You want coffee flavor, not flavorless grounds. Insist upon Nash's Toasted Coffee!

BUY EARLY AND MAIL EARLY---

Sounding of the "early mailing" suggestion by the post-office department brings to mind the nearness of the Yuletide season. The time has come when we must start thinking about doing our Christmas shopping. The postoffice department has asked the co-operation of the public in its annual "mail early" campaign. And, of course, it is impossible to mail early if shopping is not done early in the season. You have to buy before you can mail.

The public benefits by the early mailing of Christmas merchandise as well as the postoffice employees share in it by the reduced strain at the tenth hour. If you want your gifts to reach their destination so that your friends and relatives can enjoy them at Christmas time you must mail them in time.

Happily the day is past when the great army of postal workers must toil like slaves on Christmas delivering packages that might have been mailed earlier. Carriers and clerks will be at home with their families where they belong, and no mail will be delivered Christmas.

The Christmas season is hard enough for the postal employees. For days before Christmas they will be loaded down like the proverbial Santa Claus. In fact, they are old Santa's right-hand men. But their work ceases on Christmas eve and does not begin again until the day after Christmas.

So if you do not wish your friends to get belated Christmas presents that seem like an after-thought, get your packages in the mails early. The postoffice will make every effort to deliver all Christmas mail before Christmas, but it can't deliver mail that has not arrived. Early mailing will lighten the last-minute burdens of the mailmen and insure delivery before Christmas. It's well worth the effort.

MENDING OUR WAYS---

Charles A. Beard, the historian, declared in an article in Harpers Magazine the other day that the creed of individualism, revered in America since the first pioneer took his long rifle and his axe out into the shadows of the backwoods, is chiefly responsible for the fix in which we find ourselves today.

Whatever merits this creed may have had in the old days, he adds, it doesn't work today; instead, it is actually a menace to society. An age of technology and science needs careful planning and thorough-going co-operation; the old creed calls for action with each man taking care of himself and the devil taking the hindmost.

Beyond question, individualism is going to have to make some kind of compromise with the new conditions; and the kind of society in which our children and our grandchildren will live depends largely on how extensive a compromise may be necessary.

All kinds of things are possible. The conditions under which we live now represent one extreme; Soviet Russia represents the other. The America of the future will lie somewhere in between.

We hope that it will lie somewhere near its present position; when we get depressed we fear that perhaps it will lie uncomfortably far toward the other end; and meanwhile we fail utterly to realize that it will chiefly depend on the courage and intelligence with which we ourselves recognize the choice that confronts us.

For we shall make a choice—no doubt about that. We shall make it even if we don't realize that we are doing so.

If we insist that the old machine is practically perfect right now, needing nothing but a diet of optimistic speeches and a sit-tight philosophy to make it work as well as ever, we shall be helping to prepare a place somewhere down near the Russian end of the scale. If, on the other hand, we devote every energy to trying to find out what is wrong, if we discard our prejudices and insist that co-operation and planning are possible within the existing framework—then the America of the future will look very much like the America of today.

CANCER AND RACKETEERS---

The Chicago specialist who characterized cancer cells as "racketeers" in the human body gave about as apt a description of the malady for the layman as could well be invented. Also, when you stop to think about it, he gave an exceedingly good description of the racketeer.

For if the cancer cells can be described as racketeers, the racketeers of real life can very well be described as cancers. They grow and spread in the municipal body at an alarming rate, they make the municipal body very sick, and—in a good many American cities—they have made a major operation an imperative necessity.

The specialist who thought of the comparison made a simile that works both ways.

The Truth About Rheumatism

The truth is that within 24 hours after you start taking the efficient prescription called Allenru uric acid poison starts to leave your body.

Within 48 hours pain, agony, and distress are gone—you're happy again—and back on the job.

You're simply fooling yourself when you stick to makeshift pain denesters and relievers—unless uric acid goes—rheumatism stays with you.

Allenru is positively guaranteed by Johnson's Pharmacy, Economy Drug Co. and druggists everywhere to do just as this notice states or money back—a generous bottle for 85 cents.—Adv.

Do You Go Through This

An Hour After Eating?

Do you begin to have pain in your stomach or across your back? Gas rumbling in your stomach and bowels pressing on your heart until you think you are going to suffocate? A sour liquid coming up in your mouth, with bits of undigested food? Belch?

Try a tablespoonful of Dare's Mentha Pepsin before you eat and see if that doesn't help.

You will notice a big difference after the first meal. No pain. No discomfort. No belching. You're not conscious of your digestion in any way. With each succeeding meal you feel better and better.

Three days tells the story. Go to Skeage Drug Co. or any live druggist and get this guaranteed relief—money back if Dare's fails to fix you up.—Adv.

Beard, the historian, declared in an article in Harpers Magazine the other day that the creed of individualism, revered in America since the first pioneer took his long rifle and his axe out into the shadows of the backwoods, is chiefly responsible for the fix in which we find ourselves today.

Whatever merits this creed may have had in the old days, he adds, it doesn't work today; instead, it is actually a menace to society. An age of technology and science needs careful planning and thorough-going co-operation; the old creed calls for action with each man taking care of himself and the devil taking the hindmost.

Beyond question, individualism is going to have to make some kind of compromise with the new conditions; and the kind of society in which our children and our grandchildren will live depends largely on how extensive a compromise may be necessary.

All kinds of things are possible. The conditions under which we live now represent one extreme; Soviet Russia represents the other. The America of the future will lie somewhere in between.

We hope that it will lie somewhere near its present position; when we get depressed we fear that perhaps it will lie uncomfortably far toward the other end; and meanwhile we fail utterly to realize that it will chiefly depend on the courage and intelligence with which we ourselves recognize the choice that confronts us.

For we shall make a choice—no doubt about that. We shall make it even if we don't realize that we are doing so.

If we insist that the old machine is practically perfect right now, needing nothing but a diet of optimistic speeches and a sit-tight philosophy to make it work as well as ever, we shall be helping to prepare a place somewhere down near the Russian end of the scale. If, on the other hand, we devote every energy to trying to find out what is wrong, if we discard our prejudices and insist that co-operation and planning are possible within the existing framework—then the America of the future will look very much like the America of today.

CANCER AND RACKETEERS--

The Chicago specialist who characterized cancer cells as "racketeers" in the human body gave about as apt a description of the malady for the layman as could well be invented. Also, when you stop to think about it, he gave an exceedingly good description of the racketeer.

For if the cancer cells can be described as racketeers, the racketeers of real life can very well be described as cancers. They grow and spread in the municipal body at an alarming rate, they make the municipal body very sick, and—in a good many American cities—they have made a major operation an imperative necessity.

The specialist who thought of the comparison made a simile that works both ways.

The Truth About Rheumatism

The truth is that within 24 hours after you start taking the efficient prescription called Allenru uric acid poison starts to leave your body.

Within 48 hours pain, agony, and distress are gone—you're happy again—and back on the job.

You're simply fooling yourself when you stick to makeshift pain deadeners and relievers—unless uric acid goes—rheumatism stays with you.

Allenru is positively guaranteed by Johnson's Pharmacy, Economy Drug Co. and druggists everywhere to do just as this notice states or money back—a generous bottle for 85 cents.—Adv.

Do You Go Through This

An Hour After Eating?

Do you begin to have pain in your stomach or across your back? Gas rumbling in your stomach and bowels pressing on your heart until you think you are going to suffocate? A sour liquid coming up in your mouth, with bits of undigested food? Belch?

Try a tablespoonful of Dare's Mentha Peppin before you eat and see if that doesn't help.

You will notice a big difference after the first meal. No pain. No discomfort. No belching. You're not conscious of your digestion in any way. With each succeeding meal you feel better and better.

Three days tells the story. Go to Skaug's Drug Co. or any live druggist and get this guaranteed relief—money back if Dare's fails to fix you up.—Adv.

COFFEE WITH IDEAL FLAVOR PRODUCED BY IMPROVED ROASTING

Patented Process Insures Perfect Roast for Every Pound of Hills Bros. Coffee

Roasting, as much as blend, is responsible for the fine flavor of coffee. In fact, ordinary bulk-roasting methods often fail to give the blend "a break." That's because bulk methods don't always insure an even roast. Hills Bros. invented and patented a process that overcomes this undesirable feature. It is called Controlled Roasting, for control is the principle of the process.

As the accuracy of the hour-glass depends upon an even, continuous flow... a little at a time... so a perfect roast is procured for Hills Bros. Coffee by this patented process that roasts evenly, continuously... a little at a time. The speed of the coffee through the roasters is controlled. The temperature is controlled. These two things insure unvarying flavor—for the blend is never under-roasted nor over-roasted.

Remember that Hills Bros. Coffee can't go stale. It is packed in vacuum cans. Air, which destroys the flavor of coffee, is removed and kept out of these cans. Ordinary, "air-tight" cans won't keep coffee fresh. But Hills Bros. Coffee is always fresh. Order some today. Ask for it by name, and look for the Arab trade-mark on the can.

"I'll stand by it!"

"I'll stand by tobacco... in good times, in hard times... all kind of times... it helps a whole lot!"

"I GREW up with tobacco. Mostly I smoke cigarettes now—but I've smoked plenty of cigars, and pipes, too. And I never got anything but good from tobacco in any form—pipe, cigar, or cigarette—and that goes for every smoker I ever heard about.

"Why, I remember as a boy, way back, how the old folks in the fall used to pick and cure tobacco from a little patch they'd raised, and save out the best for their own smoking. And my father fought all through the war, and lived to be ninety.

"He'd certainly appreciate what we get today, though. Just think about these CHESTERFIELDS

of mine—fine tobaccos from all over the world, and cured and blended just so; you couldn't get anything purer or milder. Cleanest factories you ever saw, too—never a hand touching the cigarettes... everything up to date.

"A big improvement over the old ways... reckon that's why I like CHESTERFIELDS so much. I notice most of my friends get a lot of pleasure out of them, too.*

"But what I started out to say was, you can always depend on tobacco, no matter how things are going. Probably there was never anything in the world that meant so much to so many people, and cost so little, as tobacco—whatever way they smoke it.

"Yes, sir—I'll stand up for tobacco as long as I can strike a match!"

* NOTE. In the sections where tobacco grows and where people know tobacco, Chesterfield is usually the largest-selling cigarette.

in good times, in hard times . . .
all kind of times . . . it helps a whole lot!"

"I GREW up with tobacco. Mostly I smoke cigarettes now—but I've smoked plenty of cigars, and pipes, too. And I never got anything but good from tobacco in any form—pipe, cigar, or cigarette—and that goes for every smoker I ever heard about.

"Why, I remember as a boy, way back, how the old folks in the fall used to pick and cure tobacco from a little patch they'd raised, and save out the best for their own smoking. And my father fought all through the war, and lived to be ninety.

"He'd certainly appreciate what we get today, though. Just think about these CHESTERFIELDS

of mine—fine tobaccos from all over the world, and cured and blended just so; you couldn't get anything purer or milder. Cleanest factories you ever saw, too—never a hand touching the cigarettes . . . everything up to date.

"A big improvement over the old ways . . . reckon that's why I like CHESTERFIELDS so much. I notice most of my friends get a lot of pleasure out of them, too.*

"But what I started out to say was, you can always depend on tobacco, no matter how things are going. Probably there was never anything in the world that meant so much to so many people, and cost so little, as tobacco—whatever way they smoke it.

"Yes, sir—I'll stand up for tobacco as long as I can strike a match!"

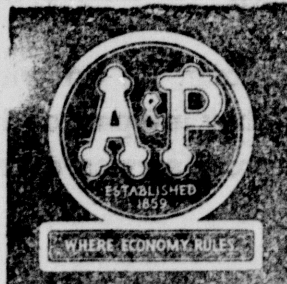

* NOTE. In the sections where tobacco grows and where people know tobacco, Chesterfield is usually the largest-selling cigarette.

NINE TO CLOSE CAREERS AS GOPHERS AGAINST OHIO STATE

EIGHT BUCKEYES TO END COLLEGIATE GRID ACTIVITIES

Minneapolis, Nov. 27.—(UP)—Seven-teen Big Ten football players will close their careers at Memorial Stadium Saturday when Minnesota plays Ohio State in the post-season game for charity.

The game, featuring the departure of nine Gophers and eight Ohio players, will be a crucial one for both teams. Minnesota will be striving to stay in the first division with Ohio State fighting for a possible tie for top honors in the Big Ten.

Chief among the departing Minnesota players will be Captain Clarence Munn. For three seasons Munn has figured prominently in Gopher football campaigns. Playing at guard during his last two seasons Munn has become widely known for his versatility.

A great lineman, the Gopher leader also has been one of the nation's leading punters as well as a ball-carrier of ability. His capacity for leadership has made him, in addition to his great playing, one of the greatest captains in Minnesota gridiron history.

Another fine lineman, Allen Teeter, Gopher right end, will finish his career Saturday. Starting as a center and guard, Teeter was shifted to end this season and became one of the leading men in the Big Ten at his position. Last year he was used principally as a reserve center.

Lloyd Stein, who played his greatest game against Michigan last week, also will end his career against Ohio. Bob Reihnen, right guard; Harold Anderson and Al Krezowski, veteran ends, are others of the line who will finish their competition in the charity contest. Jake Ohlsen, who played both at end and guard, also will play his last game for Minnesota.

Peter Somers, veteran Gopher quarterback, whose fine play this season has made him outstanding, will match ability with Carl Cramer, a sophomore, in his final game as a Gopher. Somers began his career with the Northwestern game in 1929.

Quentin Burdick, sturdy Minnesota halfback, will end his varsity career on the sidelines. Burdick suffered an injury early in the season which has kept him out of major games this year.

MERRIFIELD BEATS NISSWA, 12 TO 5, IN FOOTBALL CLASSIC

The Merrifield Panthers, lead by Quinn Parker, scored a 12 to 5 victory over the Nisswa Wildcats in a Thanksgiving Day football "classic" at Merrifield.

Over 500 fans witnessed the clash. Bedore and Palmer went over the Nisswa goal line for touchdowns while Buncher scored for Nisswa.

WILDCATS' FINAL TEST COMES IN PURDUE BATTLE

Chicago, Nov. 27.—(UP)—Northwestern's undefeated football team, gaining momentum for a possible invasion of the far west and a game with Southern California New Year's Day, will place its Big Ten championship at stake in a post-season charity game with Purdue at Soldier Field tomorrow.

Northwestern rightfully won the Big Ten title for the first time in history when it completed its regular sched-

ule with victories over Ohio State, Minnesota, Illinois, Indiana and Iowa, but for the sake of charity will go out tomorrow to prove its right to conference supremacy.

In two other post-season games Ohio State will battle Minnesota at Minneapolis and Wisconsin will meet Michigan at Ann Arbor. An aggregate of more than 100,000 persons is expected to see these three games and net charity about \$200,000.

INTERSECTIONS TO FEATURE GRID FINALE

"Winter-Proof"

SERVICE!

NOTHING is more exasperating on a cold morning than to have your starter growl and sputter — and refuse to get going!

"Winter-Proof" your car and subtract this worry from your list. There are White Eagle products made especially to give you **QUICK STARTING**, even in sub-zero weather.

The first is White Eagle Banner or Banner Ethyl gasoline—the finest gasolines sold in the middle west. They contain just the proper amount of what is known as "low boiling points" to insure quick starting.

The second is Mobiloil Arctic or Keynol "B"—the tested, proved, double-range motor oils. They flow freely at low temperatures, giving instant lubrication and lessening the drain on your battery.

For smoother performance all winter long, fill up with these **WINTER-PROOF** White Eagle products today. They are part of the brand new White Eagle 6-Point Service, the first Winter-proof service ever offered to motorists.

What the NEW White Eagle 6-Point Service Is and How it Winter-Proofs your car

1 Keynol Handy Lubricant—A pint of prevention against wear—noise—carbon—and sticky valves. Added to gasoline, it aids quick starting by sealing in the compression—reduces crank case dilution—lubricates parts difficult to reach by motor oil. It's **WINTER-PROOF**.

2 Socony Winter Gear Lubricants—For easy gear shifting in cold weather you **MUST** have a lighter grade gear lubricant. White Eagle has a complete new line of lubricants for winter use. They're **WINTER-PROOF**.

3 White Eagle Quick-Starting Gasolines—For quickest starting choose either of White Eagle's two great gasolines: Banner Ethyl, the best premium gasoline, or Banner, the best popular priced gasoline. Both are **WINTER-PROOF**.

4 Mobiloil Arctic—Keynol "B"—Both are tested, proved, double-range motor oils. Both lubricate instantly in sub-zero weather at the first turn of the motor. They're **WINTER-PROOF**.

5 Socony Certified Lubrication—To withstand the brunt of winter, your car must be lubricated **CORRECTLY** at every point. The White Eagle man doesn't miss—doesn't guess! He covers every point with the right lubricant from the manufacturer's chart of your car.

6 Anti-freeze Protection—Don't forget the winter preparation of your car is not complete without Alcohol in the radiator. Your White Eagle man supplies this "winter-proof" protection. Get it today!

Fat Men

I don't care how fat you are or how much you hate to get out and walk a couple of miles. If you will take one half teaspoon of Kruschen Salts in a glass of hot water every morning for 4 weeks and cut out pastries, sugar and fatty meats—

You will feel so good—so energetic and the urge for activity will be so great that you will immensely enjoy a daily walk of several miles—and lose fat.

While you are losing fat you will be gaining in energy—in endurance—in ambition. Your skin will grow clearer and your eyes will sparkle with the good health that Kruschen brings.

Just try one 85c bottle of Kruschen Salts; it will last you 4 weeks. After a move taken one bottle the old arm chair won't hold you any more—you'll want to be up and doing—you'll enjoy work—you'll sleep like a top and probably live years longer. Get Kruschen at Johnson Pharmacy and Economy Drug Co., or any live druggist in America with the understanding that you must be joyfully satisfied or money back.

W. R. Daniels of Richmond Hill, N. Y. writes: "After 2 bottles of Kruschen, I've removed 3 inches from my belt, feel 25% more active, mind is clearer, eruptions have disappeared. Am 46 yrs. old and feel 20 yrs. younger. I get up feeling 100%. Kruschen sure is great!"

PROPOSES HUGE DAM
ON MISSOURI RIVER

Bismarck, N. D., Nov. 27.—(U.P.)—Indications that the federal government has under consideration the construction of a huge dam across the Missouri river above Bismarck were seen today by a group of citizens here. Construction of a dam has been advocated to aid navigation in the river and to control the channel depths in the lower stretches of the river.

CONSERVATIONISTS GIRD FOR BETTER GAME PROTECTION

A closer cooperation between game conservationists of this county is imminent through the alliance formed Wednesday night by the Chamber of Commerce and the Crow Wing County Game Protective League.

A present committee of four from the Chamber of Commerce will be enlarged to seven to cooperate with officials of the league to further bring about aims for the protection of game. The present committee consists of Egan Reese, B. C. Pullkrabek, Elmer Olson and J. Cibuzar. Walter F. Tyrholm, Chamber of Commerce president, will name the additional members in the near future.

Asks Local Cooperation
"First consideration in the protection of game and abiding by the laws governing the taking of game must come locally," Cibuzar said as he informed the members that only through protection of game can good hunting and fishing be assured in the future.

D. H. Fullerton, chairman of the poor committee, reported that the Brainerd Community Relief Fund committee expects to raise \$2,500 for the relief of Brainerd poor this year. He said that an effort is being made to avoid duplication of solicitation.

George Berkholder received the en-

dorsement of the Chamber to arrange for Christmas decorations in the city and the Chamber passed a resolution asking the City Water and Light department to arrange street decorations as early as possible, preferably by Dec. 1.

S. R. Hickerson reported on economic conditions in the east, stating that indications pointed to an early recovery of better times. He said that orders he received on the trip made possible full time employment at the Hickerson garment factory here throughout the winter.

Support Mineral Development
Tyrholm was empowered to appoint

a committee to work with the property committee of the Chamber of Commerce in doing whatever possible in assisting Charles E. and Fred Britton in mineral exploration work at the Holland property.

The brothers desire to sink a drill to prove their claims that valuable deposits of ore exist there. Memberships were received from the Brainerd Dispatch, Crow Wing County Review and the Bliss Lumber Co.
